TECHNOLOGIES

JAVA

- MVVM & Design patterns
- JavaFX
- Sockets
- Direct/Indirect communication
- Hibernate
- Spring Boot

PROFILE

Motivated fourth semester Software Technology Engineering student with a strong passion for mathematics, programming, and problem-solving. Experienced in frontend design, backend development, OOP and system testing. Currently expanding knowledge in Java, C# and DevOps through academic and personal projects. My strong communication skills, adaptability, and collaborative mindset enable me to thrive in diverse teams.

EDUCATION

SOFTWARE ENGINEERING, VIA UNIVERSITY COLLEGE, HORSENS, DENMARK

Bachelor of Software Engineering | 09/2024 - present

- Obtained problem-solving skills through problem-based learning and practical, real-world assignments
- Gained experience in both frontend and backend development, creating fully functional applications
- Collaborated in teams to successfully deliver projects, encouraging teamwork and communication
- Designed system architecture and applied object-oriented programming principles to implements various software solutions

APPLIED COMPUTER SCIENCE, RUHR UNIVERSITÄT BOCHUM, BOCHUM, GERMANY

Bachelor of applied computer science| 10/2023 – 04/2024

- Gained experience in computer architecture and programming in Python
- Provided math tutoring to classmates

BILINGUAL GYMNASIUM, BANSKÁ BYSTRICA, SLOVAKIA

09/2018- 06/2023

- Exchange trips (Erasmus+): Germany, Austria
- Participant in debating competition (school round): 2020,2021, 2022
- 5-time recipient of the school headmaster diploma: exceptional grades, school representation

.

.NET PROGRAMMING

- C#
- Blazor
- LINQ & WPF

WEB DEVELOPMENT

- HTML, CSS, JavaScript
- React, TypeScript
- Bootstrap, jQuery
- JWT Authentication

WEB SERVICES

- REST API & gRPC

PYTHON

- Algorithms & Data structures
- Machine Learning

TESTING

- JUnit, XUnit, BUnit
- NUnit & Moq
- Postman

CLOUD & DEVOPS

- Docker
- Kubernetes, Terraform
- Azure
- Linux

COLLABORATION TOOLS

- GitHub, Git, GitLab CI/CD
- Jira, Miro

AGILE

- SCRUM
- Unified Process
- Kanban
- Waterfall method

HOBBIES

In my free time, I enjoy living an active lifestyle - whether it is going to the gym, training calisthenics, running or exploring new places and countries. I also love expanding my knowledge through YouTube tutorials, especially on topics like C#, DevOps, Databases, Java and other areas related to software development.

EXPERIENCE

FleetForward

Built a trucking management system in third semester using Java, C#, and REST API with JWT, using gRPC for communication and ensuring reliability with automated testing.

- Developed a Java persistance tier and C# business logic and presentation tier
- Integrated both using REST API with JWT authentication
- Implemented gRPC for efficient service communication
- Tested API endpoints with Postman and ensured reliability with XUnit and NUnit
- Managed the project using Scrum & Kanban and GitHub for version control and collaboration

VIAGO

Built a rental management system in second semester using Java, MVVM, PostgreSQL, and FXML, ensuring functionality with Junit and managing collaboration via Scrum and GitHub.

- Developed a Java Client-Server system for rental management using Sockets and MVVM architecture.
- Followed the Scrum framework and managed collaboration with GitHub
- Designed the GUI with SceneBuilder (FXML) and implemented a PostgreSQL database
- Performed black-box/white-box testing and ensured functionality with JUnit.

VIAPets

Built a management system connecting both pet shop and kennel using Java, HTML, CSS, JavaScript and jQuery.

- Developed a single user system using Java
- Followed the Waterfall method for project execution and managed collaboration with GitHub
- Designed the GUI with SceneBuilder
- Created a website using HTML, CSS, JavaScript and jQuery

EMPLOYMENT

Reitan Distribution - Horsens, Denmark

Warehouse worker| 09/2024 - present

Forstbaumschule Stingel, Forests of South Germany

Temporary worker| 07/2022- 08/2022, 06/2023 - 08/2023, 06/2024- 08/2024

- Handling papers for the German company (Forstbaumschule Stingel)
- Communicating with German foresters

Zöbelein Schuler GmbH- Erlangen, Germany

Temporary worker| 07/2021 – 09/2021

- Translating from German and English to Slovak
- Taking care of things my Slovak colleagues needed
